

## **Agenda MR/Participation Council**

**Date: Scheduled Monday 26<sup>th</sup> of March 13.00 at school (Other date to schedule)**

Making Notes: Marleen

- Brigitte Duysens: News and announcements from the principal

Amount of students:

On date of count 1<sup>st</sup> of February we had 196 students

Today 25<sup>th</sup> of March we have 171 students

We see that more students will come, some more intakes are scheduled, but there's also a natural outgoing of students. There are some students less then on the countingdate, but there's no need for now to change the groups in a formative way.

Personnel:

Tugba & Nadia are coming back out of their re-integration. They're almost at the end of it and are almost able to start with their regular work activities. Our colleague Nancy had an operation, the operation on itself went well. Hopefully her recovery will go soonly.

There's some flu running through the school, which brings some sick colleagues. We'll try to solve this with substitution or internal.

Finance (first quarter finished):

The finances are going in line with the budget. Some finances/income of money are lower then expected because of a lower amount of students on the countingdate. Also there will come some money meant for extra needs from the government that will be send in March.

New Course SKPO:

The new course of SKPO is put on paper and made visually more clear for all parents and colleagues. The poster is shown during the meeting and we walked through the different parts of it.

Topics and subjects:

- Information from the General Participation Council

No further news about this topic because the next general participation council will be in the middle of April.

- New principal → developments

The procedure for the new principal is closed. There were 5 possible candidates, one got out of the selection, so 4 were left. One candidate had an unanimous vote. Carmen van Krevel will be our new principal, at this moment principal of “de Springplank”. She is familiar with SKPO and will start 1<sup>st</sup> of May at our school. In the coming weeks she will already give some personal information in the newsletter. Most likely she will also be at one of our next meetings to get acquainted with our participation council.

- Are there topics we need to take to our next meeting? What to discuss next time?

Getting back on the topic to give some more information about secondary school in the Netherlands Miss Wendy will get in touch with EOA/Global College to see if they can provide some more information that can be given towards parents. We have to see what that information will be and how we will bring this towards parents of the children that will attend EOA/Global College.

Next Meetings (Dates to be rescheduled)

Middle of May

End of June (Informal gathering)
