Dear children and parents,

This booklet contains all the after-school activities for Spilcentrum Blixembosch. These activities are for children who attend the primary school the Boschuil and **BSO** (after school care) of Korein Kinderplein in Blixembosch.

Our offer is realised by other partners. Parents of Korein children must sign a declaration of agreement when participating in this offer on childcare days.

This booklet gives you an overview of the different activities and how you can register your child/ children.

Depending on the number of registrations, we can start with the offer.

As a Spilcentrum we are responsible for the children if the activities start slightly later than the end of the school day.

- Children who attend BSO that day, will go to BSO and eat and drink something first. Then they are brought to the activity.
- Children who do not attend BSO will go directly to the room where the activity will be held. In this case it is a good idea to give your child something extra to eat and drink while waiting for the activity to start.

When the activity is finished, you can pick up your child at that activity's location. The children who attend BSO are collected by the pedagogical staff members.

With kind regards,

Spilcentrum Blixembosch

Mad Science

SENSE ANIMAL SECRETS; DURING THIS COURSE WE TAKE A LOOK INTO THE WORLD OF ANIMALS, THE SEA, YOUR SENSES, WORMS AND MAGNETISM. A CHALLENGING PROGRAM GEARED TO THE INTERESTS OF YOUNG RESEARCHERS.

YOU LEARN

We laugh a lot, but of course we are serious. Come on, it is, after all, SCIENCE. We learn to observe, solve problems, learn new vocabulary and work together. In many schools, nature and technology is lower on the priority list, no problem.... We'll launch you into the 21st century in no time!

CHALLENGING TEACHING MATERIALS

During our lessons we use unique materials and teaching programs. Lots of self-directed and hands-on learning is our focus. At the end of the lesson the children receive an educational take-home to further explore at home.

Focus group	Group 1, 2, 3		
Date / Time	Thursday April 7 & 14 May 12 & 19 June 2 & 9	14.45 – 15.45	6 lessons
Location	To be determined.		
Cost per child	€74,50		
Number of participants	Min. 15 Max. 24		
How to join?	inschrijven.mad-science.nl		
Docent	A teacher from Mad Science		

Introduction to musical instruments

During this 6-part series, children get to know a number of percussion, wind and keyboard instruments. By learning about the different instruments, seeing/touching/hearing them and trying them out themselves, the children get an idea of what is possible if they wanted to learn to play an instrument themselves.

During the first lesson all instruments that will be used in the series are discussed. What kind of instruments are there? And what can you do with them?

In the following lessons one instrument is highlighted each time and the children get the chance to play the instrument themselves. In this way the children get a good view on a certain instrument in each lesson and at the end of the series they know a number of frequently used musical instruments.

The goal of these lessons is that, after the lessons, the children have a good idea of which musical instrument(s) they would like to play (someday).

Focus group	Group 5/6		
Date / Time	Tuesday June 7, 14, 21 & 28 July 5 & 12	14.45 – 15.45	6 lessons
Location	To be determined		
Cost per child	€ 90,-		
Number of participants	Min. 4 Max. 6		
How to join?	Closing date June 1: stefanie_achterberg@hotmail.com		
Teacher	Stefanie Achterberg		

Chess

Join the chess workshop series! The best way to learn chess is by playing it. At the beginning of every class there will be a short explanation of some new aspect of the game. After that games will be played. Besides the practice games, everyone will receive a workbook in which they can practise at their own level. This chess workshop is fun to do for beginners but definitely also a must for children that can already play chess.

Focus group	Group 3 - 8		
Date / Time	Monday March 7, 14, 21 & 28 April 4 & 11 May 9, 16, 23 & 30 June 13, 20 & 27 July 4, 11 & 18	14.45 – 15.45	16 lessons
Location	Classroom of teacher Richard (4B)		
Cost per child	€120,-		
Number of participants	Min. 8 Max. 20		
How to join?	Sign up before Friday 4 March: Http://www.040schaakt.nl/Aanmelden/		
Teacher	Dolf Meijer & Jan Arts		

Mad Science

WE DIVE INTO PHYSICS IN THIS COURSE. LIGHT, SOUND, MAGNETS AND MUCH, MUCH MORE.... OF COURSE YOU CAN WAIT UNTIL HIGH SCHOOL, BUT WHY? IT'S FANTASTIC!

Superfast blind typing

Blind typing is a must in this day and age, almost everything happens digitally these days of course. It has been scientifically proven by the Radboud University in Nijmegen, that both the language and learning performance improve with students who correctly master blind typing.

The course is organized by Instituut Spijksma from Nueneen. They work with small groups and offer not only support during the lessons, but also at home via the chat system which is linked to the typing program.

The program is child friendly and contains numerous letter/word exercises, tests, games and exam training.

In addition, it is pleasant and motivating to practice with peers. Learning to type blind is really a process that takes time and needs to be done right. Instituut Spijksma guarantees this and therefore offers a 100% diploma guarantee.

Every child is welcome on the course. For dyslectic children there may be adjustments, such as a special font. Because the classes take place every 14 days, the homework pressure is lower than in other courses and the blind typing (and thus the speed / precision) is much better automated.

For questions, please contact Heinz or Leny Spijksma at tel. 040-2832762 or info@instituut-spijksma.nl.

Focus group	Group 6 - 8	Choice of 2 lesson periods	
Date / Time	Starts on Monday, March 7, 2022, the 10th class is the exam. March 7 & 21 April 4 & 11 May 16 & 30 June 13 & 27 July 11 & 18	14.50 – 15.50 15.50 – 16.50	10 lessons
Location	Classroom of teacher Wim (7B)		
Cost per child	Payment in 1 time €214,95 or three monthly installments of €75. Includes exam fee and teaching materials.		
Number of participants	Max. 20 If both groups fill up quickly, more groups will be started.		
How to join?	https://instituut-spijksma.nl		
Teacher	Experienced expert teacher of the Instituut Spijksma.		

Discover more...

Did you know that?

There is an active neighbourhood association in Blixembosch that offers various activities. Take a look at www.blixembosch.com for more information.

Korein

At the Boschuil location, Korein offer pre-school and after-school care 5 days a week. They are open during every holiday period.

For more information, please go to: www.korein.nl or email us at: kiplinglaan@korein.nl

Want more English?

During the Summer holiday an activity week will be organised by the English lessons group. Every morning from 9.00 till 12.00 there are a multitude of English activities planned.

For more information, please contact Kaitlin: k.mihalov@hotmail.com

Stichting leergeld / Tuition Fee Foundation

The Tuition Fee Foundation's focus is families with minimal financial means. The Foundation helps these families to be able to let their children take part in after school activities which require additional funding. It is intended for children from the ages of 4-18.

For more information, please go to: www.leergeld.nl

Suggestions/ Tips?

Any suggestions or tips concerning the after-school activities programme are more than welcome. Please let us know, and maybe we will be able to incorporate your ideas in next year's programme.

For more information, please contact Andrea: a.termeer-tegenbosch@skpo.nl
