Dear parents and children

This booklet contains all the after- school activities for Spilcentrum Blixembosch.

These activities are for children who attend the primary school de Boschuil and the BSO from Korein Kinderplein in Blixembosch.

Our offer consists of "Discover More" offer (from Korein) and offer from other partners. If you take part in offers from other partners during day care, parents of Korein children must sign a consent form.

If Korein children (during daycare) wish to participate in activities outside the Spilcentrum, parents/carers must sign an agreement specifically for independent walking.

Below you will find the total overview and per activity more information about the content of the activities and the registration.

Depending on the number of registrations, we can start with the offer.

As a Spilcentrum, we ensure that the children are taken care of in the activities that start a little later than the end time of education.

1. The children who have BSO that day, go first to the BSO and eat and drink some. They are then taken to the activity.
2. The children who do not have a BSO go straight to the room where the activity is held. It's nice when the kids have a little extra drink and a snack with them to have a break after the school day.

After the activity, the children will be picked up. The children who use the BSO are picked up by the pedagogical staff.

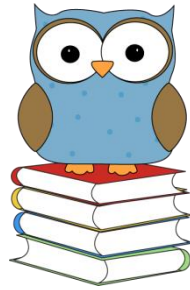

Sincerely

Spilcentrum Blixembosch

Streetbeats

A musical spectacle and lots of fun! That's the Streetbeats workshop.

By using sticks, drums, barrels and jerry cans of different sizes a true musical sensation is created.

At the beginning of the workshop, the children are introduced to the basics of the percussion.

Then it's time to play! The workshop teacher plays patterns that are

replayed by the children. If this is successful, the students will play together in groups.

Concentration and teamwork are required! Eventually, a beat is created in three or four batches that are rotated. A rhythmic spectacle and lots of fun!

Star Class

A course at Star Class "getting to know theatre". The series of six lessons is a beautifully rounded introduction to theatre and is provided by a theatrically and pedagogically well-educated teacher.. The children will start working with various fascinating facets of acting and theatre. Children learn how theatrical techniques give them more self-confidence, how to present themselves and also stimulate creative thinking. The series of lessons is structured and fits in seamlessly with the children's experience. In the lessons they are challenged and motivated to show the best of themselves in a safe environment and at their own level. The course ends with a rousing open lesson (last half hour of the last session).

Capoeira

Did you know capoeira was already practiced during Slavery? Because slaves were not allowed to do martial arts, this was hidden in a dance, so Capoeira came into existence. During these workshops we learn fighting movements, self-defense and attacks and process these movements to music. Even a handstand, cartwheel, and even more tough movements are discussed. We also learn to play musical instruments ourselves. In addition, we look back in the history where Capoeira comes from. Are you in?

Fast blind typing

Blind typing is a must in this day and age, almost everything happens digitally nowadays. It has been scientifically proven by the Radboud University in Nijmegen, that both the language and improve learning performance in students who properly master blind types.

The course is organised by The Spijksma Institute from Nuenen. They work with small groups and not only provide support during the lessons, but also possibly at home via the chat system which is linked to the type program.

The program is child-friendly and includes numerous letter/word exercises, tests, games and exam training.

In addition, it is pleasant and motivating to practice together with peers. Learning blind types is really a process that takes time and needs to be done properly. This is what The Spijksma Institute guarantees and therefore offers a 100% diploma guarantee!

Every child is welcome on the course. For dyslexic children there are adjustments, such as e.g. a special font. Because the classroom lessons take place every 14 days, the homework pressure is lower than with other courses and blind types (and therefore the speed/precision) are automated many times better!

For questions, please contact Heinz or Leny Spijksma by tel. 040-2832762 or info@instituut-spijksma.nl.
