Jubilee celebration to the Efteling!!!!

On Friday, June 3 we will celebrate our anniversary (Startbaan 22,5 years + I-Start 2,5 years= 25 years!!!)

Last Wednesday all children from the Startbaan & I-Start have been told that groups 1-8 will go to the Efteling on that day! You understand that there is joy in the school.

Of course we will prepare this school trip with care and will take into account the safety of the children. After the vacations there will be a call for help parents on that day. If you already know that you would like to be one, you can of course inform the group teacher about this.

We will provide you with more information about this school trip after the May vacations. We can already announce that the children are expected on Friday, June 3 at normal school hours. Around 10 am the buses leave for the Efteling and around 4:30 am the buses leave for school again. We expect to be back at school around 5:30 and you can start the June vacation week.

Celebrating birthdays of the “kleuter” teachers

Last Wednesday, the kindergarten teachers concluded the conclusion of the project from A to B with an outing to the Climb. There they celebrated their birthdays together with the children. We would like to thank all the help parents for the nice morning we had together with the children there.

Lottery winners action for Ukraine

Here is a small impression of some winners who had a pleasant afternoon with a master or teacher:

Camp group 7

The past few days the children of group 7 went on a camp to the Willyhoeve in Bergeijk. They have had great days and can relax the next few weeks.

Group 8

The last period at the Startbaan has started for the children of group 8. Last week they have been swimming at the Kempervennen. The final exams have been taken this week and the first rehearsal sessions for the musical have started.

Requests for leave

Last period we received many applications with very different reasons. I would like to inform you that we follow the legal rules as they are published on the [website of the national government](#). Namely lately I and / or the education officer must reject many requests.

You never have to email the teacher or myself with questions about a request for leave. The form that is used to process your request is available on [our school website](#) in Dutch and English.

We wish you a very happy vacation.
