

Dear parent(s), carer(s),

A long weekend of Easter is upon us. Enjoy it and we look forward to seeing the children back next Tuesday.

This time a slightly less elaborate St@rtpagina but of course that should not spoil the fun:

- The groups 1/2 have been learning about the theme of space last term and an astronomer even came by to give explanations
- Groups 3 built a totem pole for the technology theme last week, thanks to all the helpers who were there
- In group 4, the children learned about nature and turned caterpillars into real butterflies
- At groups 5, the children have been learning a lot about the "I love Holland" theme and are making a quiz about it. Have fun at home as they also ask you some quiz questions
- The groups 6 have been in the news with the Bank swallow project
- In groups 7, everyone has now passed the theory traffic exam and the practical traffic exam is scheduled for next week. If there are still a few parents who can help, please contact the teachers.
- Groups 8 have had auditions for the musical and preparations for the final test are in full swing.
- Groups 4 to 8 are trying out the Language and Spelling method STAAL. As a school, we are constantly looking for the most appropriate methods for our children. STAAL has proven itself in this field, so we are very curious to know what our teachers and our children think of it.

## Calendar

April 10th	2nd Easter day: All children are free

April 20th	Group 7 School camp
April 24th	Start May Holiday
May 8th	End May Holiday

### Action for charity.

3 girls from the Panda group raised a wonderful amount for the charity Kika last week: 457.00 Euros! They chose that charity to support their classmate. We are super proud of these jugglers. Thank you very much for your contribution.
