Helping children to grow up to become independent adults – that's every parents' role. Most of the time this goes well, but sometimes parents have questions or are worried about a child or their family situation. Parental Advice SEZO offers the opportunity to raise your questions and worries about parenting and the development of children from 0-18 years. In one or more sessions, the parent advisor together with you explores your questions and the possibilities for change in your family.

The parent advisors are employed by SEZO (in partnership with the GGD) and commissioned by the local government of Amstelveen and Aalsmeer.

To make an appointment for a consult, either face-to-face or by phone, call 06-41419537 or send an email: opvoedadvies@sezo.nl
