PLEASURE IN READING

Vacation reading

Vacation reading is the Library's summer program for children in grades 3 and 4. If you have just learned to read, it is important that you **keep** reading in order not to deteriorate in reading level. This program helps with that.

Every week a 10-15 min. read-aloud video is published by Fenna Ramos about best friends Lev and Saar. www.youtube.com/@vakantielezen

In addition to the videos, children also get to read. For this they choose their own stories and books.

With the coupon from the vacation pleasure book that all pupils from group 3 and 4 receive before the summer vacations, you can pick up a beachcomber's book at branches of De Bibliotheek Eindhoven, Waalre and Best. In the Beachcomber's Book you keep two things: the treasures from the video stories and the puzzle pieces from stories you have chosen and read yourself. You can also download the booklet.

You can win great prizes by participating in vacation reading and collecting puzzle pieces. More information can be found at: vakantielezen.jeugdbibliotheek.nl

TIP FROM THE LIBRARY

June 29: Library Home Language Day

Will you also come to the Library on Saturday, June 29? On that day we are hosting the Library Home Language Day, a day all about multilingualism and the importance of the mother tongue. What can you expect this day?

Theater Performance: Home Best

'Why does every child make tents, cabins and houses? Is the feeling of home then under a roof? And can you also feel at home with someone else? Or maybe home is just inside yourself?'

This performance is without spoken word so it is accessible to everyone! We recommend the performance for children from 2 years old to 6 years old. Click [here](#) for more information and to register.

Talk: The joy of reading in the heritage language

(Note: this lecture is in English!)

For parents, a lecture will be given by Gisi Cannizarro of the [HLE network](#). In this presentation we will explore the joy of reading in the home language. While it is important for parents of young children to read aloud in the home language, we will go a step further and discuss strategies to encourage children to read independently and voluntarily in the home language.
