## PLEASURE IN READING

### What can you do with your library card?

Your library card lets you do much more than borrow books from the library. For example, you can borrow e-books and audiobooks through the Online Library app. Are you looking for digital picture books? Then you can go to Bereslim or The Reading Corner. Or enjoy karaoke reading with Yoleo? It's all possible with your library card!

Curious about how this works? We've put everything together in [one place](#).

## DIGITAL LITERACY

### Digital Book Week

Digital Picture Book Week is coming up! Every day from September 25 to 29, you can check out one of the beautiful [digital picture books](#) for free on the [Bereslim](#) website.

With your library card, you always have free access to Bereslim's digital picture books. Go to the website, log in with your card number and enjoy the beautiful stories together.

Watch [this video](#) for login instructions.

Children learn 5 to 6 new words per day (normally 2 to 3 words per day) when they view digital picture books. Fifteen minutes of BereslimmeBoeken per day yields 1000 new words per year!

## SPLINTERBIEB

Come to the theme afternoon at the SplinterBieb! From September 15 to December 15, every last Friday of the month, together with play park the Splinter, we organize a themed activity. We will read, learn and discover together. Discover all about the theme of Autumn and join us for a spooky Halloween! Check [our site](#) for current dates and themes.

And for the little ones, there are toddler mornings twice a month. Check [here](#) for the schedule.

## QUESTION FROM THE LIBRARY

Dear parent,

We are often asked by parents if the library organizes activities for children who want to improve their Dutch.

At the moment, we only offer [The Language Lions](#).

We are currently researching exactly what parents are looking for their child. Would you like to help us?

Then fill out [this survey](#)!
