# Una Paloma Blanca for kids

Registration form:

With UPB Kids we offer a fun and educational environment to help your child improve their Dutch skills. Through a multitude of activities, we aim to help develop your child's Dutch language abilities and love of learning while engaging with and improving the learning styles: visual, auditory, kinesthetic and voice.

If this raises your interest and your child would like to give it a try, feel free to reach out to us via our contact details below. They can join the course for a fee of €15,- per lesson per child which includes all the materials your child needs to participate. There are a total of 6 lessons which your child can join, one lesson every week. She or he will learn something new with each lesson!

The course is set up in a fun, fast, and efficient way, this means that there will be lots of games and activities your child can partake in which are all focused on speaking and vocabulary.

Starting date: 16th of March at 15.00h (one hour lesson)

Group size: from 5 to 15 kids.

Location: Basisschool 't Slingertouw, Grasland 1, 5658 GA Eindhoven
